

ETA Panel at BIO World Congress Conference Discussing Enzyme Safety

The Enzyme Technical Association sponsored an expert panel discussion regarding enzyme safety during the 2016 BIO World Conference held in San Francisco, California. The expert Panel consisted of Jim LaMarta (DSM), Diane Shanahan (BASF), Vince Sewalt, (DuPont Industrial Biosciences), Alice Chen (Keller & Heckman, LLP) and David Mason (Novozymes). The panel discussed many facets of industrial enzyme use including environmental benefits and safe manufacturing practices. Topics covered included: History & Regulation; Enzyme Chemistry & Worker Safety; Manufacture & Production Strains and Toxicology & By-Products. [Click here](#) to access the presentation slides.
